

1	Introduction	5
1.1	Purpose of specification	5
1.2	Scope of the product	5
1.3	Relationship between CoreIP and IOverPVC	6
1.4	Specification process	6
2	General description	7
2.1	Product functions	7
2.2	Structure of functions	8
2.2.1	Classification	8
2.2.2	Relationship of CoreIP to IOverX requirements	8
3	Function—VPN lifecycle	9
3.1	Definitions	9
3.2	Feature—VPN life-cycle operations	11
3.2.1	Creating, deleting, changing an optimizing a VPN	11
3.2.2	Tracking VPN state	16
3.3	Feature—Capability enquiry	17
3.3.1	Feature exposure	17
3.3.2	UNI enquiry and allocation	18
3.3.3	Address allocation	19
3.3.4	Object search	19
4	Function—Service assurance	19
4.1	Feature—VPN alarm and operational state	19
4.2	Feature—Test and repair	20
4.2.1	General test and repair	20
4.2.2	Internal tests	20
4.2.3	Internal repairs	21
5	Function—Fabric life cycle	22
5.1	Feature—Router life cycle	22
5.1.1	Feature—UNI lifecycle	23
5.1.2	Feature—Link lifecycle	24
6	TODO	24
